

DEPARTMENT OF THE INTERIOR

DIVISION OF GEOGRAPHY

Memorandum from Director

Date: 8/3/51

To: Files

Subject:

John Reed will check the nomenclature on Bostock's map to see how well it coincides with his concepts on the Alaska side.

He knows Bostock well, and will see him in Oct.

He mentions Brooks Range with included "mountains" as an example of American usage opposite to the new C.B.S. practice.
